To: IESO Market Pricing Working Group
Subject: Action Item for July 19th Meeting

Under "Other Business", I would like to request the following study to be conducted by the IESO. I will not be able to attend the meeting due to travel.

Request: That the IESO identify, on a Monthly basis, the incidents where market Results have to be investigated. Where Market Results are investigated and corrected, the IESO group those by root cause (ie input data error, etc) and describe the process which failed. Where the monthly frequency exceeds a predetermined level, the IESO look to improve the process to eliminate the error.

Attached is an example of market Price review.

The IESO is investigating the market results for hour 7 of trade date Saturday, July 14, 2007, as a result of an input data problem. The outcome of the review will be made available within two business days, in accordance with the market rules, and will be posted on the Current Notices page of the IESO website. If necessary, any public reports requiring administrative pricing revisions will be re-published at that time.
