Subject: Market Price Working Group not reinstated
Auto forwarded by a Rule

This is being sent to all MPWG members and past attendees of MPWG meetings.

After a six month suspension, the IESO has confirmed that it will not reinstitute the Market Price Working Group. The IESO will continue to use specific stakeholder engagement plans to promote price fidelity and transparency and address priority pricing items.

In response to stakeholder feedback, the IESO will continue to publish a monthly synopsis of any pricing events (HOEP greater than \$200 or less than \$0) at the beginning of each month through the IESO Weekly Bulletin:
