Subject: Procedure for Non-ANSI Reliability Standards - Conference Call/Webcast

RSSC members:

At the last RSSC meeting it was requested by the members that the IESO develop a process for Non-ANSI reliability standards and to bring that process back to the RSSC.

The market rules around this issue were discussed at the Technical Panel on Tuesday April 19 and it was agreed by the Technical Panel, with a few minor changes, to post the market rules for a three week comment period ending May 12, 2011.

http://www.ieso.ca/imoweb/pubs/icms/tp/2011/04/IESOTP_249_4b_MR_00379_R00_Amendment_Proposal_v2_0.doc

To provide you with enough time to factor the process discussion in your comments on the market rule amendment, we would like to arrange a conference call/webcast to discuss the proposed process and address stakeholder concerns.

Below are two possible dates and times for the meeting. Please let us know which one of the dates would work better for you. You can send your response to my attention

Friday April 29, 2011 – 10-11:00am

Tuesday May 3 from 1-2:00pm

We will provide you with the necessary materials once a date has been chosen.

Any questions or concerns, please do not hesitate to contact me.
