

# Market Rule MR00294 TS SS Metering

# MR00294 (1)

- Amendment to the Market Rules to address the metering requirements for transmission station service loads supplied from a distribution system.
- Permits an estimate of station service load as per market manuals.
- For total nominal rating  $> 1\text{MVA}$ , estimate must be based on MC compliant meter.
- There are 7 such installations in 5 transmission facilities

# MR00294 (2)

- **RMSC to confirm:**
  - An estimate is an acceptable method
  - **> 1 MVA is an acceptable cutoff point for the use of a retail meter as the basis of the estimate.**
