

Revenue Metering Standing-Committee

Measurement Canada

Date: 16 May 2007

- Measurement Canada is considering changing the *Electricity and Gas Inspection Act* to address changes in measurement technologies and business practices.
- Consultation will take place from April 2007 to December 2008.
- The issue identification phase will occur between April and August 2007.
- All interested stakeholders are invited to comment. The IESO is proposing that it will identify issues and comment.
- IESO issues and comments will be brought before the RMSC for review and discussion.
